

TOGETHER WITH

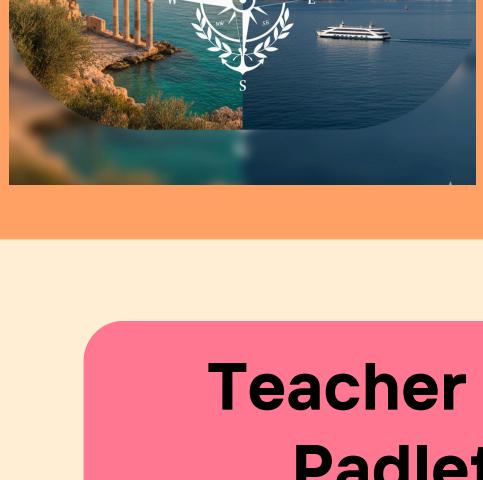

Mixing of cultures: the sea of Tigray

(Puglia) and the sea of Gölcük (Kocaeli)"

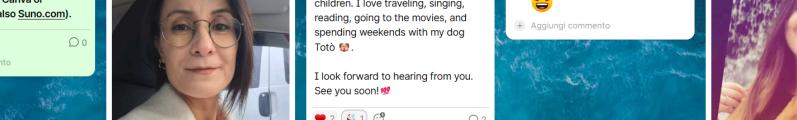

As a result, the *labeled* and *unlabeled* data are used to train a *semi-supervised* model. The *labeled* data is used to learn the *class* and *feature* distributions, while the *unlabeled* data is used to refine the learned distributions. This process is repeated until the model converges.

Suno	<p>Dear colleagues 🇮🇹 I wanted to invite you to use this application (Suno.com) to create music with AI. You can enter the keywords you want to include in your song, and a melody will then be composed, which you can choose as you like. You will then use this song as background music for your city's PowerPoint presentation. The presentation itself must be uploaded to this Padlet page by February 28th, I will then upload it to the E-twining portal. Thank you all, and good work! ❤️</p>	<p>The city of Taras (modern-day Taranto) represents one of the most significant centers of Greek colonization in southern Italy. It was founded in the 8th century BC by colonists from Sparta (the Partheni), making it the only Spartan colony in Magna Graecia. This origin profoundly influenced its culture, military structure, and social organization.</p>	 <p>TEACHER VERONICA 🇮🇹</p> <p>Hello everyone 🇮🇹 , my name is Veronica and I'm the founding teacher of this wonderful project whose main theme is our sea.
